### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. Claims 1-16 are pending in the instant application.

#### ***Election/Restrictions***

2. The response to the restriction requirement filed August 23, 2004 has been considered. The requirement for restriction is withdrawn by the Examiner. All claims of both species of the invention (Group I – Claims 1-8; figures 3-4 and Group II – Claims 9-16; figures 5-6) are considered in the instant application because it has been deemed by the Examiner that the examination of both embodiments does not present an undue burden.

#### ***Claim Objections***

3. Claims 1-8, 11-13, 15, and 16 are objected to because of the following informalities:

Regarding claim 1, in line 13, "a crystal" should be replaced by –the crystal--.

Regarding claims 3-5 and 11-13, in line 3 of each claim, "switching" should be replaced by –gating—to make the claim language more definite.

Appropriate correction is required.

#### ***Allowable Subject Matter***

4. Indication of allowable subject matter is made regarding claims 1-16.
5. The following is a statement of reasons for the indication of allowable subject matter:

Withstanding the claim objections above, the claims are indicated to contain allowable subject matter because the prior art of record does not disclose or obviate a

phase locked loop (PLL) circuit containing the components claimed in the independent claims 1 and 9. The prior art does not disclose a PLL containing a reference, transmission, and crystal oscillators and each of a reception, reference, and transmission divider as well as a control circuit and first and second phase detectors with the claimed connections between the elements.

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following prior art of record is cited to further show the state of the art with respect to phase locked loop circuits.

U.S. Pat. No. 5128623 to Gilmore.

U.S. Pat. No. 5838205 to Ferraiolo et al.

U.S. Pat. No. 5748043 to Koslov.

U.S. Pat. No. 5008629 to Ohba et al.

7. This application is in condition for allowance except for the following formal matters:

The objections to the claims above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

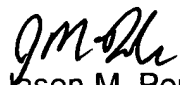

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
